

Outline

Designed by Finnish designer Antti Kotilainen, "AATOS" embodies the philosophy of "retaining only essential functions." The easy chair, with its wide backrest and seat for support, offers a light yet comfortable solution for contract settings when used in rows. Made from Hokkaido oak with its striking and robust grain, the chair is available in a wood seat variant that features a three-dimensional curve for comfort or in upholstered versions for further customization.

Grain

Random match

Wood planks or veneer sheets are joined at random, of which expressive surface patterns require craftspeople for high skills and an eye for beauty.

Book match

Two pieces of wood planks or veneer sheets with similar surface patterns are arranged side by side to look like a book opened, which makes surface patterns look more dynamic by grains running symmetrically.
