Grain

Random match

Wood planks or veneer sheets are joined at random, of which expressive surface patterns require craftspeople for high skills and an eye for beauty.

Book match

Two pieces of wood planks or veneer sheets with similar surface patterns are arranged side by side to look like a book opened, which makes surface patterns look more dynamic by grains running symmetrically.

● 20 25 30 35 40 45 50 The figures in the boxes represent sales periods more than 20 years.

● The seat fabric and leather price is classified in seven grades.

● Delivery and installation are separately charged.

* Please contact for more details.

BCTD

Designed by a Danish designer, Michael C. Poulsen, BCTD was named after the concept of "Be Seated." The barstool made of Japanese ash combines unique Danish design with wood processing techniques based on the Japanese craftsmanship. The saddle-like seat allows for comfort in any seating position.
