Grain

Random match

Wood planks or veneer sheets are joined at random, of which expressive surface patterns require craftspeople for high skills and an eye for beauty.

Book match

Two pieces of wood planks or veneer sheets with similar surface patterns are arranged side by side to look like a book opened, which makes surface patterns look more dynamic by grains running symmetrically.

This table is inspired by the geographic feature of the same name. The table top has a thickness of 25 mm, and a canyon is carefully crafted right in the middle. The table top tapered to the edge is connected inward with the wood legs using stainless steel, which creates a look of floating.
