Grain

Random match

Wood planks or veneer sheets are joined at random, of which expressive surface patterns require craftspeople for high skills and an eye for beauty.

Book match

Two pieces of wood planks or veneer sheets with similar surface patterns are arranged side by side to look like a book opened, which makes surface patterns look more dynamic by grains running symmetrically.

Challenge dining collection was designed by three German designers: Maly, Hoffman, and Kahleiss. The chair embodies a sense of slenderness and sharpness. Being opposite to them, the soft-cushion type has been added to allow customers to have more options to mix with other CondeHouse table collections.

*The figures in the angle brackets express the height of H type.

Due to its complicated frame shape, the craftsman encountered many challenges while making the prototype as the name suggests. This easy chair has an ergonomic-inspired cushion that will fully support your back from all angles. The easy chair and stool are the ultimate combo that is perfect for you after a long day of work. Available in Japanese oak or walnut.
