

Outline

Can you design a table that is simple and fits well with any place? Based on such a request from the contract market, our product development team created the CL table. It is simple, but our craftsmanship is shown in every detail: beautiful grain characters on the top board and smooth joint parts of the table top and the legs. The joints are angled outward at one degree, but the outline of the joint is right-angled by tapering the legs at the same angle, so that the tables can be put together without a gap. We are confident it will create a premium feeling space in any public facilities.

Grain

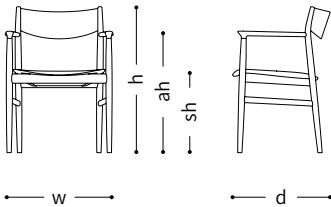

Random match

Wood planks or veneer sheets are joined at random, of which expressive surface patterns require craftspeople for high skills and an eye for beauty.

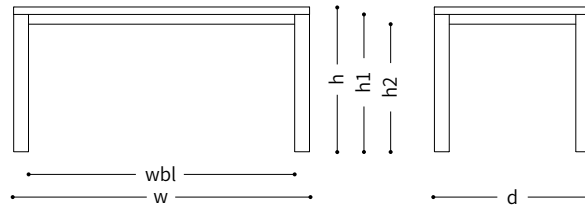

Book match

Two pieces of wood planks or veneer sheets with similar surface patterns are arranged side by side to look like a book opened, which makes surface patterns look more dynamic by grains running symmetrically.
