## Outline

Japan Creative was founded in 2011 to deliver “a new value of Japanese craftsmanship” to the world by developing products through cooperation of Japanese manufacturers and both local and overseas creators. In their 23rd project with a theme of woodworking, CondeHouse collaborated with Raw-Edges, which resulted in a new proposal of stools and tables at the Milan Design Week - The Crust collection

Grain

- Random match
- Wood planks or veneer sheets are joined at random, of which expressive surface patterns require craftspeople for high skills and an eye for beauty.
- Book match
- Two pieces of wood planks or veneer sheets with similar surface patterns are arranged side by side to look like a book opened, which makes surface patterns look more dynamic by grains running symmetrically.
