Outline

● Chair
The life style of many people has changed faster since the COVID, and more and more people came to work at home. Accordingly, the required function of home chairs becomes wider. FOUR, this beautiful chair acts as an office chair, dining chair, relaxing place, and toy to play with kids.

● Desk
A space for work becomes required at home, an environment where food, clothing, and shelter were the mainstay. Accordingly, some issues to solve came up such as "functional requirements for size and storage capacity," "discomfort in coexisting with a relaxing space," and "noise generated by the presence of work in the home." The goal was to create a desk that would be functional for organizing documents and gadgets, yet harmonize with the other furniture in the living room and dining room, and look beautiful with the FOUR chair. The design feature is the fusion of the floating top panel, the straight lines of the back panel, and the organic curves of the legs. The FOUR desk, with its warm, natural materials, is a piece of furniture you will want to spend a lot of time with.
