Grain

Random match
Wood planks or veneer sheets are joined at random, of which expressive surface patterns require craftspeople for high skills and an eye for beauty.

Book match
Two pieces of wood planks or veneer sheets with similar surface patterns are arranged side by side to look like a book opened, which makes surface patterns look more dynamic by grains running symmetrically.

● 20 25 30 35 40 45 50 The figures in the boxes represent sales periods more than 20 years.

● The seat fabric and leather price is classified in seven grades.

● Delivery and installation are separately charged.

KAMUY

CondeHouse is delighted to present KAMUY collection, a new classic realized in collaboration with Naoto Fukasawa. Asahikawa is famous as a wood furniture producing district in Japan, and KAMUY collection came to fruition by a unique fusion of its local wood crafting technology and Fukasawa's artistic forming skills. The simple and well-made design of KAMUY naturally harmonises with any type of environments. KAMUY, the most chair-like chair, offers the feeling of déjà vu.

● Armchair・Side Chair

This is the fruit of the designer's desires and our craftsmanship responding to them. Every important point of the main frame is shaped edgy; the beams between the legs are very slightly tapered; the shape of the wooden seat is curved out based on 3D data. These small tricks make the chair look sharp from any angle. The chair looks so normal and beautiful.

● Table

The shape of this table is not round but not exactly square. The best part is the finish of the top board edge. The edge is not vertical but reverse-slanted to the back side. The slant angle is not constant but finely adjusted so that the thickness of the top board is thin and constant viewed from any angle. The legs can be positioned in two ways to match the number of chairs to be set (for ones more than 2100 mm in width).

・2 Seater

(Top)

(Side)　(Front)

Designer

Naoto Fukasawa
Japan

● **Easy Chair**
The designer pursued the best angle between the backrest and seat of a chair for people to lounge in. Some parts of the outline are designed to be edgy, but the surface is finished so smoothly to make people relax. There are two types of backrests: wooden or upholstered.

● **Side Table・Round Table**
The round side table has two types of top boards: wood and marble. The legs are tapered to both ends, and the arc of the leg base was precisely calculated out, so that the leg base doesn't make a shadow on the floor.

● 2 Seater

The easy chair is stretched to a two-seater bench of 1450 mm in width.

● Stool

Simple but elaborately designed. The height of the beams between the legs are made uniform to those of the easy chair for a perfect balance between them.

Bianco carrara marble

Bianco carrara marble used for the side table top is unique in color and pattern, and may inherently have pin holes and fine cracks on its surface. Please don't leave it wet. Marble surface, regardless of water repellent, contains moisture in its pin holes and fine cracks and becomes likely to be peeled off.
