Grain

Random match

Wood planks or veneer sheets are joined at random, of which expressive surface patterns require craftspeople for high skills and an eye for beauty.

Book match

Two pieces of wood planks or veneer sheets with similar surface patterns are arranged side by side to look like a book opened, which makes surface patterns look more dynamic by grains running symmetrically.

20 25 30 35 40 45 50 The figures in the boxes represent sales periods more than 20 years.

- The seat fabric and leather price is classified in seven grades.
- Delivery and installation are separately charged.

\* Please contact for more details.

A chair originally designed for a museum project by Hiroyoshi Yoneya from TONERICO:INC. The back of the chair is designed to be lower than the table not to stand out too much. KYOBASHI provides a sense of quietness and would not ruin the atmosphere even if the space is equipped with plenty of them. Available in Japanese Oak and in the wide variety of colors, good for both public and home use.
