Grain

Random match

Wood planks or veneer sheets are joined at random, of which expressive surface patterns require craftspeople for high skills and an eye for beauty.

Book match

Two pieces of wood planks or veneer sheets with similar surface patterns are arranged side by side to look like a book opened, which makes surface patterns look more dynamic by grains running symmetrically.

A comfortable high stool, easy to stand up and sit down, versatile for restaurants, office meeting rooms, home, etc. It is designed by the German designer we've worked with for many years. He aimed to ease strain on the body by allowing people to change sitting posture freely. The long stool legs made of Hokkaido ash gives an intellectual air.
