

Outline

Designed by Motomi Kawakami, the "SETTE" chair merges tension with relaxation in an architectural design that evokes a touch of Japanese aesthetics. Its simple structure features gently curved back and seat surfaces, balanced proportions, and a high backrest that enhances its rear profile. Paired with side tables at arm height, SETTE creates versatile layouts for gatherings, making it suitable for hotel lobbies, offices, and bars.

Grain

- Random match
- Wood planks or veneer sheets are joined at random, of which expressive surface patterns require craftspeople for high skills and an eye for beauty.
- Book match
- Two pieces of wood planks or veneer sheets with similar surface patterns are arranged side by side to look like a book opened, which makes surface patterns look more dynamic by grains running symmetrically.
