Grain

Random match

Wood planks or veneer sheets are joined at random, of which expressive surface patterns require craftspeople for high skills and an eye for beauty.

Book match

Two pieces of wood planks or veneer sheets with similar surface patterns are arranged side by side to look like a book opened, which makes surface patterns look more dynamic by grains running symmetrically.

● 20 25 30 35 40 45 50 The figures in the boxes represent sales periods more than 20 years.

● The seat fabric and leather price is classified in seven grades.

● Delivery and installation are separately charged.

* Please contact for more details.

SL TABLE

This leg shape is common, may look nothing special at first glance. What makes this table unique is the legs made of wood, though this type of table legs are made of metal in most cases. We elaborated the shape of the leg surface to make a good touch. Anticipating users will feel the table legs with their toes. Two heights (710 mm or 740 mm) and an optional cable tray are available.

Wood coating

Common for Japanese Sen, Japanese Elm and Japanese Oak
