

Outline

Designed by Maly Hoffman Kahleyss in 2012. Sled is one of a kind table that is made of solid wood slabs combined with a stainless steel base, which is the origin of the name: it looks like a sled. It is available in walnut or Japanese oak; the legs available in hairline finished stainless steel and other three colored-steel. A versatile solid wood table that fits in any situation.

Grain

- Random match
- Wood planks or veneer sheets are joined at random, of which expressive surface patterns require craftspeople for high skills and an eye for beauty.
- Book match
- Two pieces of wood planks or veneer sheets with similar surface patterns are arranged side by side to look like a book opened, which makes surface patterns look more dynamic by grains running symmetrically.
