

Outline

As its name suggests, the "SPIN" chair features a unique twist in its design from the backrest to the legs. This lightweight stacking chair is a revival of a 1999 International Furniture Design Asahikawa (IFDA) entry, redesigned for improved comfort and durability. The seat options include an intricate latticework of polyester tape, a clean upholstered finish, or leather upholstery.

Grain

Random match

Wood planks or veneer sheets are joined at random, of which expressive surface patterns require craftspeople for high skills and an eye for beauty.

Book match

Two pieces of wood planks or veneer sheets with similar surface patterns are arranged side by side to look like a book opened, which makes surface patterns look more dynamic by grains running symmetrically.
