Outline

This armchair was designed by Kijuro Yahagi. The smooth line from the seat to the back looks as if it is cut out from an arc. The spacious seat and back together gently embrace the body, and the arms provide support for standing and sitting while giving a good accent in design. This is a chair with a strong presence, good for public spaces.

Grain

Random match
Wood planks or veneer sheets are joined at random, of which expressive surface patterns require craftspeople for high skills and an eye for beauty.

Book match
Two pieces of wood planks or veneer sheets with similar surface patterns are arranged side by side to look like a book opened, which makes surface patterns look more dynamic by grains running symmetrically.
