## Grain

### Random match

Wood planks or veneer sheets are joined at random, of which expressive surface patterns require craftspeople for high skills and an eye for beauty.

### Book match

Two pieces of wood planks or veneer sheets with similar surface patterns are arranged side by side to look like a book opened, which makes surface patterns look more dynamic by grains running symmetrically.

TL table is customizable size-wise with unobtrusively-placed legs which make rising and sitting easier. In the case of a top board of more than 1800 mm, the mounting positions of the legs can move in and out. Pursued are not only functionality but design and craftsmanship, which can be seen in the curved surface of the top board and the elaborate joints of the legs.
