

Outline

With its playful, animal-like form, the TOMTE stool reflects the whimsical design of German designer Gunter Koning. Crafted from molded plywood with smooth curves and a lightweight design, the stool was originally a 1996 International Furniture Design Asahikawa (IFDA) silver prize winner. Available in two sizes, the "small" version with a 350mm seat height is perfect for children.

Grain

- Random match
- Wood planks or veneer sheets are joined at random, of which expressive surface patterns require craftspeople for high skills and an eye for beauty.
- Book match
- Two pieces of wood planks or veneer sheets with similar surface patterns are arranged side by side to look like a book opened, which makes surface patterns look more dynamic by grains running symmetrically.
