## Outline

The bold, voluminous wooden seat paired with slender pipe-like legs creates a striking contrast in the TUB stool and bench series. Crafted from laminated wood made from Hokkaido ash offcuts, the material showcases unique grain patterns. The stool, featuring a built-in LED light in its rear leg, was a finalist in the 2021 International Furniture Design Asahikawa (IFDA). The benches, available in two sizes, can also be paired with optional tables or reading lights, making them ideal for hotel lounges and galleries.

## Grain

Random match

Wood planks or veneer sheets are joined at random, of which expressive surface patterns require craftspeople for high skills and an eye for beauty.

Book match

Two pieces of wood planks or veneer sheets with similar surface patterns are arranged side by side to look like a book opened, which makes surface patterns look more dynamic by grains running symmetrically.
