Outline

● Lowboard

A simple lowboard that can be used flexibly in many ways. It has a drawer in the middle and flap-door compartments on both sides. Our craftsmanship can be seen on the front face where wood grain runs horizontally from one end to another. The back panel is removable for wiring.

● Curio Case

Hobby tools and mementos can be displayed and enjoyed under LED downlights in this compact curio case. It's flexible to fit into a variety of scenes and uses, not only in the living room. The door is made of tempered glass, and the back is made of frosted mirror that maintains elegant brightness without reflecting the room too much. The height is unified with the chest of drawers to make a set. The legs, which are the same design as the lowboard, open slightly outward to ensure stability.

● Chest

A small chest of drawers with hidden storage for your favorite watches, rings, passports, bank books, and other important items. The top three drawers are opened using an antique-style key as a pull. The bottom board of the drawers are upholstered with fabric; we pursued quality even in an unnoticeable place like this. The bottom four drawers are touch-open type without pulls. When lined up with a curio case of the same height, they look like a single piece of furniture.

● Desk

The combination with a Wing dining chair can make a unique personal space anywhere due to its comparably small size, like in the corner of a living room, bed room, etc. The top board rotates on the drawer cabinet to have the cabinet on either left or right.

## Grain

Random match

Wood planks or veneer sheets are joined at random, of which expressive surface patterns require craftspeople for high skills and an eye for beauty.

Book match

Two pieces of wood planks or veneer sheets with similar surface patterns are arranged side by side to look like a book opened, which makes surface patterns look more dynamic by grains running symmetrically.
